

**BRIGHTBRILL****HireHub***Smarter Hiring
Brighter Future*

AI-Powered Recruitment & Hiring Management Platform

BrightBrill HireHub aims to make recruitment more structured, transparent, data-driven and efficient by bringing people, processes, communication and intelligent automation together on one platform.

**From Careers Inbox to Hiring Decision —
One Intelligent Recruitment Hub.**

BrightBrill HireHub is an intelligent, centralized recruitment management platform designed to transform the way organizations receive, manage, evaluate, communicate with, and progress job applicants through the hiring process. HireHub brings the careers inbox, candidate applications, resume/CV processing, interview workflow, candidate communication, AI-assisted shortlisting, dashboards, reporting and administration into a single, secure platform.

The platform eliminates fragmented recruitment activities and manual candidate tracking by synchronizing applications directly from the organization's careers mailbox and automatically organizing candidate information against the relevant job roles and hiring stages.
